Notes Issuance Programme

PART A – CONTRACTUAL TERMS

Terms used herein shall be deemed to be defined as such for the purposes of the Terms and Conditions set forth in the Base Prospectus dated 12 September 2016, which constitutes a base prospectus for the purposes of the Prospectus Directive (Directive 2003/71/EC) (the “Prospectus Directive”). **This document constitutes the Final Terms of the Notes described herein for the purposes of Article 5.4 of the Prospectus Directive and must be read in conjunction with such Base Prospectus [and any supplement thereto].** These Final Terms and the Base Prospectus together constitute the Programme for the Tranche. Full information on the Issuer, the Guarantor and the offer of the Notes is only available on the basis of the combination of these Final Terms and the Base Prospectus. The Base Prospectus is available for inspection at the office of the Guarantor and the office of the Issuer.

General Description of the Notes

The Notes have a maturity of 10 years until the 7th of September 2027.

If the Issuer does not exercise its right to switch the pay-off (Switch Option, see below) the Notes generate on Maturity Date a Variable Interest (a coupon) in function of the Final Price of the STOXX Global ESG Leaders Diversification Select 50 EUR Index (Price) calculated as the arithmetic average of the Price of this Index on 12 Valuation Dates between the 28th of September 2026 and the 28th of August 2027 (included).

If this Final Price of the Index is higher than its Initial Price, the gross coupon on Maturity Date will be determined as 150% of the positive performance of the Index ; if the Final Price of the Index is lower than or equal to the Initial Price, the coupon will be 0%.

The Issuer has the right (option) to switch the Notes into Fixed Interest Notes (the “Switch Option”) on each annual Coupon Switch Date (being understood that upon the exercise of such option a coupon of 5.00% multiplied by the number of years expired since Issue Date will be paid on the Fixed Interest Payment Date following immediately the relevant Coupon Switch Date, and that the coupon on each subsequent yearly Fixed Interest Payment Date will be 5.00% until Maturity Date (included).

The Notes will be redeemed on Maturity Date at par (100%).

The Notes are unconditionally and irrevocably guaranteed by AXA BANK BELGIUM SA.(formerly named AXA BANK EUROPE SA)

AXA BANK EUROPE SA
NOTES ISSUANCE PROGRAMME
EUR 2,000,000,000

Introduction and warnings

A.1 **Warning:** This Summary should be read as introduction to the Prospectus. Any decision to invest in the securities should be based on consideration of the Prospectus as a whole by the investor. Where a claim relating to the information contained in the Prospectus is brought before a Court in an EEA State, the plaintiff investor might, under the national legislation of the Member States, have to bear the costs of translating the Prospectus before the legal proceedings are initiated. Civil liability attaches only to those persons who have tabled the summary including any translation thereof, but only if the Summary is misleading, inaccurate or inconsistent when read together with the other parts of the Prospectus or it does not provide, when read together with the other parts of the Prospectus, key information in order to aid investors when considering whether to invest in such securities.

A.2 The Issuer authorises that this Base Prospectus, as supplemented from time to time, may be used for the purposes of a public offer within 12 months from the date of this Base Prospectus in Belgium, by any credit institution authorised pursuant to Directive 2006/48/EC or any investment firm authorised pursuant to Directive 2004/39/EC to conduct such offers (an Authorised Offeror).

Each offer and each sale of the Notes by an Authorised Offeror will be made in accordance with the terms and conditions agreed between such Authorised Offeror and the investor, including in relation to the price, the allocation and the costs and/or taxes to be borne by an investor. The Issuer is not a party to any arrangements or terms and conditions in connection with the offer and sale of the Notes between the Authorised Offeror and an investor. This Base Prospectus does not contain the terms and conditions of any Authorised Offeror.

B.2 **Domicile, legal form, legislation and country of incorporation**

AXA BANK BELGIUM SA ("AXA BANK") is a "naamloze vennootschap/société anonyme" of unlimited duration incorporated under Belgian law and registered with the Crossroads Bank for Enterprises under business identification number 0404.476.835. Its registered office is at 1000 Brussels, Place du Trône 1, Belgium (formerly 1170 Brussels, Boulevard du Souverain 25)

With effect from May 15th, 2017, AXA BANK EUROPE SA changed its company name to AXA BANK BELGIUM SA. and changed its legal address to Place du Trône, 1, B-1000 Brussels (Belgium). (formerly: Boulevard du Souverain 25, B-1170 Brussels (Belgium)) .

As all other company's data remain unchanged, this change of name and legal address shall have no effect on the existing assets, liabilities obligations and agreements currently in force or entered into by AXA Bank Europe SA.

B.4b **Trends affecting the Guarantor and its industry**

1. Uncertain economic conditions

AXA BANK's business activities are dependent on the level of banking, finance and financial services required by its customers. Also, the market for debt securities issued by banks is influenced by economic and market conditions and, to varying degrees, market conditions, interest rates, currency exchange rates and inflation rates in other European and other countries. The profitability of the bank's businesses could, therefore, be adversely affected by a worsening of general economic conditions in its markets, as well as by foreign and domestic trading market conditions and/or related factors, including governmental policies and initiatives.

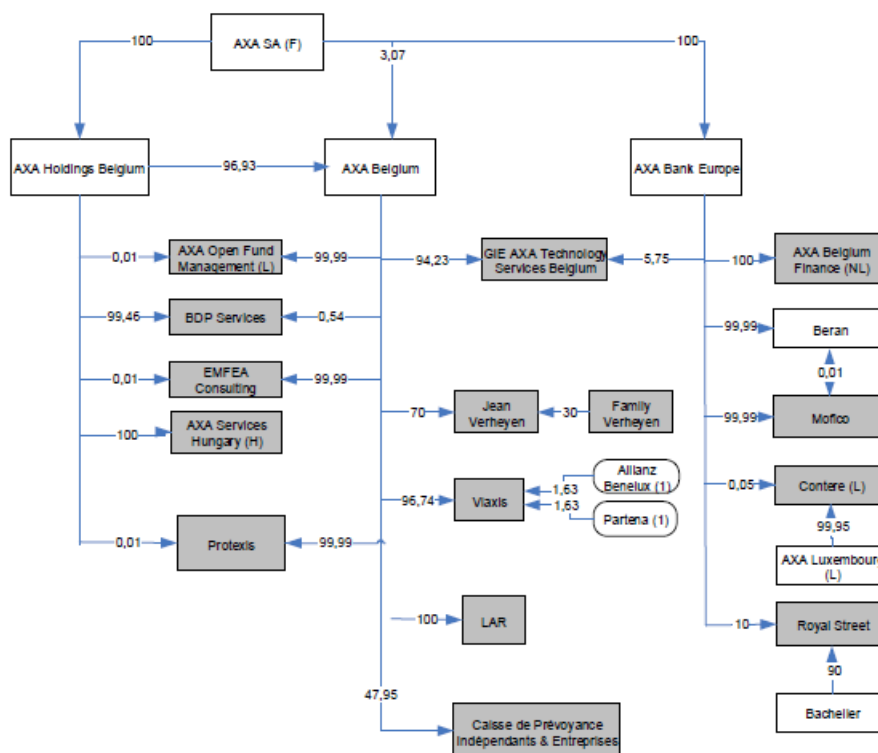

2. Global financial crisis and Eurozone debt crisis

The global financial system has suffered considerable turbulence and uncertainty in recent years and the outlook for the global economy over the near to medium term remains challenging. The default, or a significant decline in the credit rating, of one or more sovereigns or financial institutions could cause severe stress in the financial system generally and could adversely affect the markets in which AXA BANK operates.

3. Increased and changing regulation

Recent developments in the global markets have led to an increase in the involvement of various governmental and regulatory authorities in the financial sector and in the operations of financial institutions. In particular, governmental and regulatory authorities in Europe have already provided additional capital and funding requirements and or may in the future be introducing a significantly more restrictive regulatory environment including new accounting and capital adequacy rules, restrictions on termination payments for key personnel and new regulation of derivative instruments. Current regulation together with future regulatory developments could have an adverse effect on how AXA BANK conducts its business and on the result of the operations.

B.5 Position of the Guarantor in its group

(1) out of group (F) France (L) Luxembourg (H) Hungary (in run off) (NL)The Netherlands

AXA BANK is a member of the AXA Group. AXA Group is an important global player whose ambition is to attain leadership in its core Financial Protection business. Financial Protection involves offering its customers - individuals as well as small, mid-size businesses - a wide range of products and services that meet their insurance, protection, savings, retirement and financial planning needs throughout their lives. Furthermore AXA BANK offers hedging services to entities of the AXA Group.

B.9 Profit forecast or estimate

AXA BANK does not disclose forecasts on its future results.

B.10 Qualifications in the audit report on the historical financial information

Significant changes in the financial or trading position

There has been no material adverse change in the financial or trading position of AXA BANK since 31 December 2015.

B.13 Recent events relevant to the evaluation of the Guarantor's solvency

AXA BANK has made no investments since the date of the last published financial statements, and no principal future investments are planned.

A contract of sale was signed at the start of February 2016 covering the sale of all AXA Bank Europe's Hungarian activities. The effective transfer date is predicted to be in the last quarter of 2016, remaining subject to prior approval from the competent authorities, and the conditions of use.

In 2013, AXA Bank Europe has been indicted in connection with credits marketed to French property professionals in the '80s by Anhyp. AXA BANK is contesting the legitimacy of the claim and is currently contesting the referral to the criminal court. At the date of this prospectus, the procedure is ongoing.

There have been no other governmental, legal and arbitration proceedings (during a period covering the last 12 months) which may have, or have had in the recent past, significant effects on AXA BANK's financial position or profitability.

With effect from May 15th, 2017, AXA BANK EUROPE SA changed its company name to AXA BANK BELGIUM SA. And changed its legal address to Place du Trône, 1, B-1000 Brussels (Belgium). (formerly: Boulevard du Souverain 25, B-1170 Brussels (Belgium)) .

This change of name and legal address shall have no effect on the existing assets, liabilities obligations and agreements currently in force or entered into by AXA Bank Europe SA.

Risk factors

D.2 Key risk specific to the Issuer and to the Guarantor

Like other banks, AXA BANK faces financial risk in the conduct of its business, such as credit risk, operational risk and market risk (including liquidity risk). Furthermore, AXA BANK faces regulatory risk, the uncertain economic conditions and the competition across all the markets.

Considering the close relationship with, and the guarantee of the obligations of ABF(NL) by, AXA BANK, the risk factors as set out above in respect of AXA BANK may also apply, directly and/or indirectly, to ABF(NL).

- General credit risks are inherent in a wide range of AXA BANK's businesses. These include risks arising from changes in the credit quality of its borrowers and counterparties and the inability to recover loans and any amounts due.
- Market risks are all the risks linked to the fluctuations of market prices, including, principally, exposure to loss arising from adverse movements in interest rates, and, to a lesser extent, foreign exchange rates and equity prices, stemming from AXA BANK's activities.
- Operational risk is the risk of financial or non-financial impact resulting from inadequate or failed internal processes, people and systems, or from external events. The definition includes legal and reputation risk but excludes strategic risk and expenses from commercial decisions. Although AXA BANK has implemented risk controls and loss mitigation actions, and has resources devoted to developing efficient procedures and staff awareness, full protection against operational risks can never be attained, due to the very nature of these risks.
- Liquidity risk management at AXA BANK is guided by internal and prudential liquidity ratios. Strict limits also apply with regard to the part that can be funded in the short term and the part that can be raised on the interbank market.

The Terms and Conditions of the Notes enable each Issuer to substitute itself as principal debtor under the Notes another company of the group to which the Issuer belongs. Such a substitution is subject to certain conditions, including that (i) the Guarantee must remain in place in case of substitution of ABF (NL) and that (ii) the substitute must have a long term credit rating of at least the same level as AXA BANK, in case of substitution of AXA BANK. This substitution aims to enable intragroup reorganisations, such as mergers or reallocation of financing activities within the group (which may be driven by a variety of reasons, such as structural optimization, regulatory changes). A substitution will result in the Noteholders not having the same issuer as the initial issuer, albeit the substitute issuer will be part of the same group. In case of substitution, a new base prospectus will need to be published if the substitute issuer wants to issue notes under the Programme after that the substitution has become effective.

D.6 Key risk specific to the derivative securities

Warning:

- **The holder of derivative securities could lose all or a substantial portion of the value of his investment in such securities.**

Provisions for calling meetings of Noteholders permit defined majorities to bind all Noteholders including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the majority.

No assurance can be given as to the impact of any possible judicial decision or change to the law or administrative practice after the date of issue of the relevant Notes.

In addition, any relevant tax law or practice applicable as at the date of this Prospectus and/or the date of purchase or subscription of the Notes may change at any time.

The Terms and Conditions of the Notes may enable the Issuer and/or the Calculation Agent to make a unilateral modification to the essential features of the Notes or to redeem the Notes before maturity.

Regarding the compliance with Book VI of the Belgian Code of Economic Law in respect of Notes issued under the Programme and placed in the framework of a public offer in Belgium, the following principles will apply. For this purpose, a public offer has the meaning set forth in Article 3 of the Belgian Act of 16 June 2006 on the public offer of investment instruments and the admission to trading of investment instruments on a regulated market. The Issuer and/or the Calculation Agent is only allowed to make a unilateral modification to the essential features of the Notes (see "Consequences of Extraordinary Events" in each type of underlying of section 9.7.1) on the cumulative conditions that (i) such right is limited to events of force majeure or other events which significantly modify the economy of the Note and for which the Issuer is not responsible ; (ii) the modification does not create an imbalance between the rights and obligations of the parties to the Note, to the detriment of the Noteholders. This means that the Issuer and/or the Calculation Agent will take all measures and pay every effort to continue the Note under similar circumstances; and (iii) no costs are charged to the Noteholder.

Events which are inherent in the business and core activities of the Issuer, such as a "Hedging Disruption" and "Increased Cost of Hedging", can be considered neither as force majeure nor as events that give the Issuer and/or the Calculation Agent the right to make a unilateral modification to essential features of the Notes or to early redeem the Notes.

Modifications which are not unilateral, such as modifications agreed upon by the Noteholders or upon a majority decision of the Noteholders as provided for in the Terms and Conditions in accordance with Conditions 9.17 Notices and 9.18 Meeting of Noteholders, are possible at any time.

Regarding the early redemption right (see “Consequences of Extraordinary Events” in each type of underlying of section 9.7.1), pursuant to Article VI.83, 10° of the Belgian Code of Economic Law (i) such right is limited to events of force majeure or other events which significantly modify the economy of the Note and for which the Issuer is not responsible and (ii) the Issuer will early redeem the Notes at their Fair Market Value, without deduction of any costs.

However, if, for capital protected or guaranteed Notes and except in the case of a force majeure event, the Issuer and/or the Calculation Agent did not manage to continue the Note under similar economic circumstances, the consequence of an extraordinary event will be monetization (see “Consequences of Extraordinary Events” in each type of underlying of section 9.7.1) without deduction of any costs

In case of such monetization of the Note, the Noteholders will be granted the right, as an alternative to the monetization, to sell the Note to the Issuer or to an agent appointed by the Issuer at market value. In both solutions, no deduction of any costs will be applied and the costs already borne by the Noteholders will be refunded pro rata temporis to the Noteholders.

The investment activities of certain investors are subject to investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent Notes are legal investments for it.

Potential investors should be aware that:

- i. the market price of such Notes may be volatile;
- ii. an underlying index or underlying indices may be subject to significant changes, whether due to the composition of the index itself, or because of fluctuations in value of the indexed assets;
- iii. the resulting interest rate may be less (or may be more) than that payable on a conventional debt security issued by each Issuer at the same time;
- iv. payment of principal or interest may occur at a different time or in a different currency than expected;
- v. the holder of a non capital guaranteed Variable Linked Note could lose all or a substantial portion of the principal of such Note (whether payable at maturity or upon redemption or repayment), and, if the principal is lost, interest may cease to be payable on the Variable Linked Note;
- vi. a Relevant Factor may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices;
- vii. if a Relevant Factor is applied to Notes in conjunction with a multiplier greater than one or contains some other leverage factor, the effect of changes in the Relevant Factor on principal or interest payable will likely be magnified;
- viii. the timing of changes in a Relevant Factor may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the Relevant Factor, the greater the effect on yield;
- ix. the risks of investing in a Variable Linked Note encompass both risks relating to the underlying indexed securities and risks that are linked to the Note itself;
- x. any Variable Linked Note that is indexed to more than one type of underlying asset, or on formulas that encompass the risks associated with more than one type of asset, may carry levels of risk that are greater than Notes that are indexed to one type of asset only;
- xi. it may not be possible for investors to hedge their exposure to these various risks relating to Variable Linked Notes;
- xii. a significant market disruption could mean that the index on which the Index Linked Notes are based ceases to exist; and
- xiii. the index may cease to be published, in which case it may be replaced by an index which does not reflect the exact Relevant Factor, or, in the case where no replacement index exists, the cessation of publication of the index may lead to the early redemption of the Notes.]

Notes with variable interest rates can be volatile investments, especially if they are structured to include multipliers or other leverage factors, or caps or floors.

Investors may not be able to sell their Notes easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market.

The market price of Variable Linked Notes with a multiplier or other coverage factor may be volatile, and the value of such Notes on the secondary market is subject to greater levels of risk than is the value of other Notes.

The formula used to determine the amount of principal, premium and/or interest payable with respect to the Variable Linked Notes contains a multiplier or leverage factor, the effect of any change in the applicable currency, stock, interest rate or other index will therefore be increased.

Warning:

- A Noteholder's actual yield on the Notes may be reduced from the stated yield by transaction costs.
- A Noteholder's effective yield on the Notes may be diminished by the tax impact on that Noteholder of its investment in the Notes.
